

TELL US YOUR EXPERIENCE

Your working experience can be very useful for those that are now thinking about their future after the graduation or those trying to understand if physics is the right degree to find later a job they will like. Try to describe your job and your company, what are the skills you got studying physics that you're now using in your job and how you got the job.

Thank you for your contribution to this blog!

Any question can be left unanswered. For all the details that you consider useful and that are not included in the initial or final questions, please use the main text.

Post

Title:

Text of the post (*if you want you can take a look at the post template on the web site*):

If you want to link some web pages, please write the links at the end of the post in the following format:
"Word in the text you want to link the web page to" = www.web-page.com

Others details useful for the readers:

Where should I send a CV? (in the case of a Master, how can I apply for admission?)

Where can I find more information?

Important assets to get the job: (for example a fluent english, good grades...)

Which is the typical gross salary during the first 5 years?

< 15K 15-30K 30-50K >50K (€/year \$/year)
